

MISSION:

Eliokem's SHE mission is to ensure that its products are developed, manufactured, transported, used and disposed of safely, so that people, assets, the environment and natural resources are protected in accordance with the principles of « Responsible Care », the chemical industry's global voluntary initiative, and the International Chamber of Commerce's 'Business Charter for Sustainable Development'.

Eliokem requires that every employee, and those that work on our behalf, exercise personal responsibility in implementing and maintaining the company's SHE policy in order to prevent harm to themselves, others and the environment.

Safety and the protection of the environment are the responsibility of us all.

All levels of management within the company have a leading role to play in implementing Eliokem's SHE policy.

Eliokem will communicate openly with our customers, suppliers, the relevant authorities, the public and any other individual or organization affected by our business, on the nature of our activities and our SHE performance.

POLICY:

The main objective of the company is to ensure that all its activities are conducted in a manner consistent with its Safety, Health and Environment Policy, by:

- the prevention of risks and environmental pollution
- the assessment of the significant hazards posed by our products and processes on health, safety and the environment
- the setting up of an effective SHE program that actively seeks to identify and to reduce risks associated with our products and processes
- the provision of appropriate SHE training for all employees and the setting of challenging targets and progress measurement to ensure continuous improvement in SHE performance
- the management of emergency situations by provision of appropriate training and protective equipment
- the encouragement of employees to work under safe and healthy conditions :
 - by positive interaction and consultation,
 - by rapid and efficient communication
 - by leading by example
 - by discipline.
- the provision of appropriate SHE information to all contractors and suppliers and others who work with us, or handle our products
- the compliance with relevant laws, regulations and other requirements to which Eliokem is subject
- the continuous innovation in the search for reduction of emissions and energy consumption which assist in conserving the environment and lead to sustainable development

Committment:

The prime responsibility for SHE rests with the Eliokem Board. The Board is committed to the provision of the organization and resources for the development and maintenance of a SHE implementation strategy to ensure full compliance with the Eliokem policy.

Eliokem adheres to the principles of « Responsible Care», the global initiative of the International Council of Chemical Associations (ICCA), an ethic that helps the chemical industry to operate safely, profitably and with due care for future generations.
